

Precision Air

#451370

AIR SIZING AT THE TOP OF A FOOT PEDAL

The ultimate decorator's tool, the Precision Air automatically sizes air-filled latex balloons without the use of heavy cylinders, noisy air compressors, or time-consuming templates. Electrical unit provides digital timing to accurately size two air-filled balloons simultaneously at the touch of the foot pedal control. Inflates 5"-16" round latex balloons and specialty latex balloons 2-inch in diameter and larger. Includes a soft pack carrying case.

Selling Points:

- Enables all decorators to produce precision air-filled balloon decor
- Increases Efficiency
- Save time and labor without use of a template
- Quieter and more portable than an air compressor

Uses:

- Sculpting
- Decorating
 - Swags
 - Air Filled Columns
 - Centerpieces
 - And more!

Additional Features

- Built-In Cycle Counter
- Digital Controls
- Removable Extension Tips
- Foot Pedal Control
- Safety Fuse
- Includes Soft Carrying Case
